

Training Professionals

Steve Dillehay is a Training Coordinator II. Steve specializes in Inspection, Heating, and Manufactured Housing. In his capacity, Steve provides extensive in-field technical assistance to Weatherization Assistance Program (WAP) Inspectors and Heat Tech in-field Follow-ups. Additionally, Steve provides on-going technical consultation to the State WAP on best practices in manufactured housing and is an active member of the State of Ohio Technical & Curriculum Working Group. Steve maintains certification as a Building Performance Institute Shell Specialist, Building Analyst I, and U.S. Environmental Protection Agency Universal Refrigerant Certification. Steve received his HVAC Certification from the Mid-East Ohio Vocational Adult School in Zanesville, Ohio in 2000. In June, 2016, Steve was awarded Master Trainer certification for Energy Auditor and Quality Control Inspector and Certified Instructor for Retrofit Installer and Crew Leader from the Interstate Renewable Energy Council. Steve may be contacted at sdillehay@coadinc.org

James Hall is a Training Coordinator II. Jim has taken part in training not only for weatherization crews and heating technicians in the State of Ohio program but has also performed training in a vast number of other states. Jim is credentialed to Lead EPA-RRP Initial and Refresher training, as well as Lead Abatement Contractor and Worker training. Jim spent many years as a HVAC contractor which has provided him with valuable experience not only in HVAC but general construction practices. In addition, Jim is a proctor for Building Performance Institute Building Analyst, Envelope Professional and Quality control Inspector. He also holds the State of Ohio Electrical and HVAC license. In June, 2016, Jim was awarded Master Trainer certification from the Interstate Renewable Energy Council for Retrofit Installer Technician, Crew Leader, Energy Auditor and Quality Control Inspector. Jim may be contacted at jhall@coadinc.org

Jamie Marshall is a Training Coordinator II. Jamie has been in the Heating Technology department since 2006. Jamie's primary training responsibilities include heating unit inspection, electrical troubleshooting, maintenance, repair, installation practices and procedures. Jamie is in charge of all BPI activities at COAD as well as being a BPI Super Proctor. He is also certified as Building Analyst, Envelope Professional, Heating Professional and Residential Building Envelope Whole House Air-Leakage Control Installer. Jamie was a HVAC contractor for more than 15 years. While working as a contractor he obtained a vast knowledge of HVAC equipment and practices as well plumbing, electrical and general construction experience. Jamie is also an EPA certified Type I and II technician by AC/C. In June, 2016, Jamie was awarded Master Trainer certification for Energy Auditor and Quality Control Inspector and Certified Instructor for Retrofit Installer Technician and Crew Leader from the Interstate Renewable Energy Council. Jamie may be contacted at jmarshall@coadinc.org

Kevin McCoy is the Training & Technical Manager. Kevin primarily works in the Heating Series and as a Lead Safe Trainer as well as overseeing all aspects of training and technical issues. Kevin's professional background includes carpentry, general construction and has worked as a Certified Real Estate Home Inspector for over seven years. Kevin has also taught in the public school system and a juvenile corrections facility. Kevin's technical background consists of completing Real Estate Home Inspector at Hondros College, National Association of Certified Home Inspectors, HVAC series at Fairfield Career Center and is EPA type universal certified. In June, 2016, Kevin was awarded Certified Instructor for Retrofit Installer Technician, Crew Leader, Energy Auditor and Quality Control Inspector from the Interstate Renewable Energy Council. Kevin may be contacted at kmccoy@coadinc.org

Ryan Coyer is a Training Coordinator II. Ryan completed Accredited Apprenticeship with Sheet Metal Workers Local #24 and plied his trade in commercial HVAC and fabrication for 17 years before entering the field of weatherization. Ryan has worked in weatherization in many aspects of the field including installation and Supervision, with most of his experience as an inspector for utility weatherization programs and HWAP as well as EPP energy audits. Ryan has completed a variety of training at the OWTC including all Lead related courses, OSHA, Solar Accessor and Renewable Energy Retrofits. Ryan maintains certification as a Building Performance Institute Envelope Professional, Building Analyst and Quality Control Inspector. Ryan may be contacted at rcoyer@coadinc.org
