TRAINING PROFESSIONALS

David Freeman is a Training Specialist. Dave has 20+ years’ experience in various aspects of construction. He currently holds a Lead Risk Assessor and Lead Abatement Contractor license for the State of Ohio. As a CHIP (Community Housing Impact and Preservation) Rehabilitation Specialist, he performed home inspections and repairs to low-income clients to bring their homes up to approved HUD guidelines. Dave was hired at COAD in April 2019, and is eager to start training with the knowledge and experience he has gained from his years as a contractor and assessor including various trainings received at COAD. You can contact David at dfreeman@coadinc.org

James Hall is a Training Coordinator II. Jim has taken part in training not only for weatherization crews and heating technicians in the State of Ohio program but has also performed training in a number of other states. He is credentialed as a trainer for Lead EPA-RRP Initial and Refresher, Lead Abatement Contractor and Worker. Jim spent many years as an HVAC contractor, which has provided him with valuable experience in HVAC and general construction practices. In addition to being a proctor for Building Performance Institute Building Analyst, Envelope Professional and Quality control Inspector, he holds a State of Ohio Electrical and HVAC license. In June, 2016, Jim was awarded Master Trainer certification from the Interstate Renewable Energy Council for Retrofit Installer Technician, Crew Leader, Energy Auditor and Quality Control Inspector. Jim may be contacted at jhall@coadinc.org

Jamie Marshall is a Training Coordinator II. Jamie has been in the Heating Technology department since 2006. Jamie’s primary training responsibilities include heating unit inspection, electrical troubleshooting, maintenance, repair, installation practices and procedures. Jamie is a BPI Proctor Mentor and in charge of BPI activities at COAD. He is certified as an Energy Auditor, Quality Control Inspector, Building Analyst, Envelope Professional and Heating Professional. While certified as an HVAC contractor for 15+ years, he obtained a vast knowledge of HVAC equipment, plumbing, electrical and general construction. Jamie is also an EPA certified in 608 refrigerant handling. In June, 2016, Jamie was awarded Master Trainer certification for Energy Auditor and Quality Control Inspector, Certified Instructor for Retrofit Installer Technician and Crew Leader from the Interstate Renewable Energy Council. Jamie may be contacted at jmarshall@coadinc.org

Kevin McCoy is the Training & Technical Manager. Kevin primarily works in the Heating Series and as a Lead Safe Trainer, and manages training and technical issues at OWTC. Kevin’s professional background includes carpentry, general construction and has worked as a Certified Real Estate Home Inspector for over seven years. He has taught in the public school system and a juvenile corrections facility. Kevin’s technical background includes professional HVAC training and EPA type universal certified. In June, 2016, Kevin was awarded Certified Instructor for Retrofit Installer Technician, Crew Leader, Energy Auditor and Quality Control Inspector from the Interstate Renewable Energy Council. Kevin may be contacted at kmccoy@coadinc.org

Ryan Coyer is a Training Coordinator II. Ryan completed the Accredited Apprenticeship with Sheet Metal Workers Local #24 and plied his trade for 17 years in commercial HVAC and fabrication before entering the field of weatherization. He has worked in weatherization in many aspects of the field including installation and supervision, with most of his experience as an inspector for utility weatherization programs, HWAP, and EPP energy audits. Ryan has completed a variety of training at the OWTC including all lead-related courses, OSHA, Solar Accessor and Renewable Energy Retrofits. He maintains certification as a Building Performance Institute Envelope Professional, Energy Auditor, Building Analyst and Quality Control Inspector. Ryan may be contacted at rcoyer@coadinc.org

GH Runevitch is the former Training and Technical Manager of the COAD OWTC, and currently holds the position of Intermittent Instructor. His OWTC career started in 1987, and includes the development and presentation of many of the courses currently provided in Ohio, as well as in other states. His areas of expertise include: building shell diagnostics and efficiency retrofits; HVAC systems safety testing, proper sizing using Manual J, installation procedures; and lead abatement and lead-safe work practices training. Prior to joining COAD OWTC, GH was co-owner of a residential construction business. The business focused on energy efficient construction, which included properly sized and installed heating/cooling units. GH may be contacted at ghrunevitch@coadinc.org
